

Harvison Elected To Environmental Board

On December 13, 1972, the Alabama Surface Mining Environmental Association was formed to "advance the trade and commerce of its members, to aid one another, the industry as a whole and the general public by seeking to alleviate and correct abusive and disruptive environmental practices, to inform the public of the activities of the Association, the nature and importance of the surface mining industry in the State of Alabama and the activities of the Association in protecting and restoring the environment."

Alabama Lt. Governor Jerry Beasley spoke at the meeting, pointing out the likelihood of passage of extensive new mine reclamation legislation in the next session of the State Legislature in May. He recommended an active program of education, the public concerning surface mining and working with lawmakers and ecology groups to provide the state with a balance between mineral development and proper environmental safeguards.

A. L. Harvison, representing Southland Sand and Gravel Co., Inc., a local concern, was elected to the Board of Directors for a one-year term. Mr. Harvison will attend a Board of Directors' meeting in Evergreen on January 23, 1973.

New Home Security Service Is Offered

A new group security service for home owners and apartment dwellers is now available in a hundred cities throughout the nation.

Offered by Pinkerton's, Inc., New York, mobile patrol units with two-way radios are provided to meet each locality's specific needs. In addition, 24-hour communication via home phone to a neighborhood patrol and communications center provides prompt security service.

THE FAMILY LAWYER

Fire Insurance on Cigars?

Once upon a time a man tried to collect fire insurance on a box of cigars. Having smoked them all, one at a time, he argued that they had been "destroyed by fire" and were therefore covered by his policy.

But the court pointed to a rule which is followed almost everywhere in the field of fire insurance: that damage done by a "friendly" fire is not covered. A friendly fire is one that is burning where it belongs—in an oven, in a fireplace or at the tip of a cigar. "In common parlance," a court explained, "one has not 'had a fire' so long as it has burned only in the place where it was intended to burn."

This rule has generally been applied not only to cigars burned on purpose, but also to those burned by mistake. Consider two examples:

1) A housekeeper threw an ash-tray into the family furnace, unaware that it contained a valuable ring.

2) A man unwittingly tossed his wife's dentures, wrapped in tissue paper, into a trash fire.

Both the ring and the dentures were ruined in the flames, and claims for fire insurance were filed in both cases. But both claims were later denied in court, since the furnace fire and the trash fire were friendly—burning where they belonged.

Of course, a fire may change its character from friendly to unfriendly.

Suppose that some red hot cinders jump out of a crackling fire place and set fire to nearby drapery. For this kind of damage, you could indeed collect compensation under the ordinary fire insurance policy.

For, as one court pointed out, most of the fires that eventually do cause damage are fires that were friendly when they began.

Card Of Thanks

We wish to thank Dr. John Kimmey and the nursing staff at Elba General Hospital for the fine medical care during the illness and death of our mother, Mrs. Willie Mae Taylor, who passed away on January 11, 1973.

Also, thanks to our friends and neighbors for their prayers, food, flowers, and every expression of sympathy shown during this time.

May God bless you be our prayer.

Miss Pippin, Mr. Hornsby Exchange Vows

Wedding vows between Dottie Pippin, daughter of Mr. and Mrs. Darwin Hornsby of Dottie, Ala., and Mr. and Mrs. Claxton Hornsby of Elba, Ala., were exchanged at 6:30 p.m. on the evening of December 30, 1972, in the sanctuary of the First Baptist Church of Andalusia. The wedding service

was performed by Reverend, Harel Cushing, pastor of the church. Miss Joan Hill of Andalusia and a gold antique clock were the gifts. The bride wore a gown decorated with tulle and white ribbons, and the groom wore a tuxedo with a white shirt and a white bow tie. The ceremony was held in the sanctuary of the First Baptist Church of Andalusia. The bride and groom were joined by the officiant, and the wedding party consisted of the bride's maid of honor, the groom's best man, and several bridesmaids and groomsmen. The ceremony was a traditional Protestant service, and the bride and groom exchanged vows and rings. The wedding reception was held at the home of the bride's parents, and it was a joyous occasion for all who attended. The bride and groom were surrounded by family and friends, and the celebration was a memorable event for everyone involved.

flavored vegetable oil made delicious appetizers. Don't freeze unfrosted cakes more than one or two months. They may lose some of their quality if stored longer. To keep hands free from fishy smells, wet them with cold water before preparing fish. Then, wash your hands afterwards with warm water and soap.

Joseph B. Grimes, age 78, of Elba, passed away January 20, 1973, in a local hospital, after a sudden illness.

Funeral services were held January 22 at New Ebenezer Church at Curtis with Reverend Terry Gannell officiating. Burial was in the church cemetery. Hayes Funeral Home of Elba directed.

Survivors include: his widow, Lena Grimes; Elba; three sons, Lamar G. Grimes, Baudette, Miss.; James Grimes and Durwood Grimes, both of Elba; a daughter, Mrs. Winifred Alexander, Nashville, Tenn.; one brother, Lim Grimes, Opa, and one sister, Mrs. A. D. Boland, Elba.

Director Appointed At Mac Arthur Tech

Mr. Robert W. Brantley has recently been appointed to direct all evening classes at MacArthur State Technical Institute.

Mr. Brantley was born and reared in Montgomery, Alabama and was graduated from Sidney Lanier High School. He attended Louisiana State University and Southern University. He came to work at MacArthur Tech in October, 1965 as Assistant in Student Affairs. He will continue to work in this capacity in addition to his new duties as Evening Director.

He is making plans to begin evening classes in nearly all departments - Business Education (typing, spelling and vocabulary), Business English, Accounting, Data Processing, Cosmetology, Drafting and Design, Nurses Aides, Body and Fender Repair, Automotive Mechanics, Radio and T.V. Repair, Industrial Electricity, Air Conditioning and Refrigeration, Electronics, Masonry, Upholstery, Welding, and Textile Technology.

Bermuda grass pastures and fields are burned. During the past several years a lot of Coastal Bermuda fields in Coffee County have been affected by a fungus disease which causes leafspot and crown rot. Burning should be done while the grass is dry but when the ground is moist. Burn with the wind so that the blaze will move fairly rapidly. It is best here in Coffee County to burn two or three weeks before grass would normally greenup. Be sure to burn along all fence rows and banks to help prevent reinfestation. We recommend that fields be burned every year. If this can't be done, it should be done every other year.

Speaking of Coastal Bermuda, Eugene Farris of Elba does custom planting of Coastal Bermuda grass. We probably have others, but I believe he is still in the business. Incidentally, before a fire is started, be sure to notify the forest ranger in Elba.

REV EDWIN R. SELLS

On the calendar this week of many churches is a special time for prayer.

It is often called Week of Prayer for Christians Unity. There are many definitions for prayer. Some call it I have heard are interesting. Prayer is need finding a voice. Prayer is embarking on a journey. Prayer is a friend in search for a friend. Prayer is a quest in the darkness of midnight. Prayer is communion through darkness and closed doors. Prayer is expecting and receiving all things whatsoever we need to meet demands when life is under way.

Your definitions may be simpler yet different from these. The important thing for most of us isn't the definition but the mere practice of prayer in our lives.

I once heard about a mother who heard her son praying. She noticed that what he was doing was telling God what he planned to do and seeking to direct God to help him. She said to him, "Son don't bother to give God instructions; just report for duty." Have you reported for duty lately? Is prayer as important as your breath? Or do you just pray when you get "caught out" and can't do any better? We need to be serious about this great Holy Habit of Prayer.

We learn so much from children and their simplicity. There was once a little boy who dropped in his church often to pray. The pastor noticed him several times and asked the little fellow what he said in his prayers. The little boy answered his pastor, "Oh, I was just loving him awhile." Yes, prayer is one of the wonderful ways in which we love God. Our Lord wants us to love Him from His children.

One who is serious about his Christian growth should not wait until his sunset years to do his praying. Prayer is a discipline that grows into. We usually start our prayers late in our early years with "gimme" prayers. Hopefully, as we grow in Christian Grace and maturity we move from "gimme" prayers to prayers of praise, thanksgiving and intercession. Intercession is so necessary today. We need to pray for others. We need to remember our national leaders, our government leaders at all levels, our prisoners of war, our church members, our pastors, our teachers, our sick and lonely, and certainly those persons who need to commit their lives to Christ.

And let us not forget the obligation to put legs, and arms, and hands to our prayers. It is one thing "just to pray" but it is yet another to "pray and work and serve". Action follows Prayer. Have you reported for duty today? God may have some marching orders for you!

Voluntary Wage And Price Controls Require Restraint By All Sectors

President Nixon's decision to impose voluntary wage and price controls over prices and wages, replacing them with a voluntary system, poses great problems and great dangers.

Although I am ordinarily a strong advocate of an uncontrolled economy in which prices and wages maintain a workable balance as they operate in free and open markets, in August 1971, when the system got out of kilter, I gave my support to the President when he imposed wage and price controls. I believe that during the past 17 months these controls have done a good job of contributing to economic recovery and to holding down the rate of inflation.

My concern today over re-imposition of the mandatory controls and replacing them with a voluntary system is that now, just when recovery is under way, just when the economy is expanding, just as jobs are becoming plentiful and the unemployment rate is starting to dip, and just when business profits are going up, this is not the time to rock the boat.

Fortunately, however, the President has warned that he wants to retain stand-by authority to step in should anyone violate the voluntary rules.

There are several recent actions which offer some hope that

that this is movement in the right direction that could lead to a bright economic future for Alabama and the Nation. But, at the same time, American business, American consumers, American workers must recognize the tremendous responsibilities placed on each one by the return to voluntary economic controls under the President's Executive Order.

Every sector of the economy must use restraint so that voluntary controls will have a chance to do the job that must be done. Certainly, I will do everything that I can to help.

Three Seasons Club Meets

The Three Seasons Study Club held its January meeting at a local restaurant with Mrs. Tom Dyess, Mrs. Zackie Storey and Mrs. Wilson Dyess serving as hostesses. A delicious desert plate was served.

Mrs. Paul King called the meeting to order. Mrs. Charles Pearce gave the devotional. Mrs. Robert Parker introduced the guest speakers, Mrs. John R. Smith, Mrs. Dany Teel, Mrs. Jimmy Wise, and Mrs. Ronnie Young.

Following the program a short business session was conducted. Mrs. King requested all club reports be submitted. Mrs. Robert Fleming called the roll. Mrs. Paul Hudson reported on the recent visit to Partlow to visit the club's sponsored child.

The following members were present: Mrs. Harold Berry, Mrs. Judith Butts, Mrs. Betty Cranton, Mrs. Lloyd Daniels, Mrs. Robert Fleming, Mrs. Zackie Storey, Mrs. Tom Dyess, Mrs. Wilson Dyess, Mrs. Kimmey Han, Mrs. Paul Hudson, Mrs. Ricky Kennel, Mrs. Paul King, Mrs. Wayne Marler, Mrs. Jack Padgett, Jimmy Peacock, Mrs. Charles Pearce, Mrs. Jim Rhodes, Mrs. Fred Young, Mrs. John R. Smith, Mrs. Dany Teel, Mrs. Jimmy Wise, and Mrs. Ronnie Young.

Select A Baby's Gift With Care

"When selecting gifts for babies and small children, give some consideration to the mother and her time as well as the child," says Miss Kathleen Thompson, Extension clothing specialist. "Buy a gift that will fit well and require little care."

Be sure your gift is appropriate to the season and the age of the child. Don't buy heavy garments when the warmer months are near, unless you are purposely buying garments large enough for the child to wear next year.

"Remember, that a child grows rapidly," cautions Miss Thompson, "so buy clothing large enough to be worn several times. If you are in doubt about the size of the child, perhaps a gift certificate would be a better choice. The mother can then select the needed garment in the correct size."

Clothing easy to care for is appreciated by all busy mothers. Look for care directions on hangtags or package covers. Buy garments that are preshrunk and colorfast. The specialist says permanent press finishes eliminate ironing and touch up pressing.

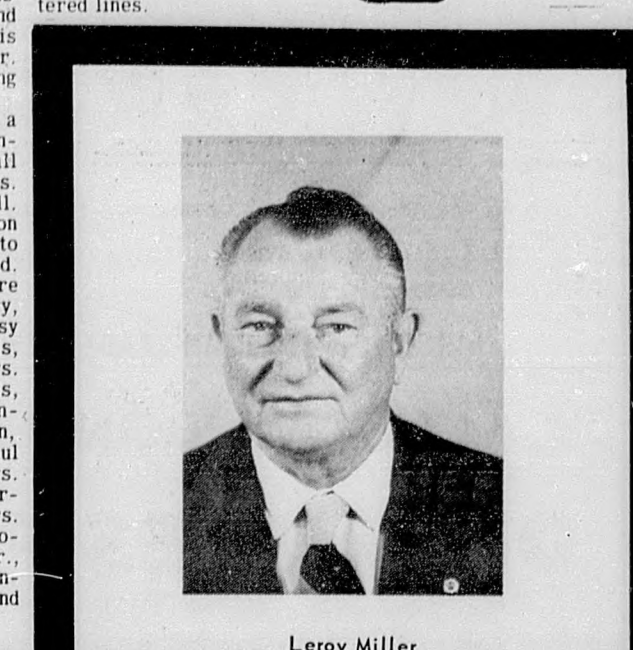

Clothing that requires little care is slightly more expensive, but since they can be washed and dried so quickly, fewer items will be needed. To reduce the amount of care needed for baby clothes, look for fabrics and designs that are comfortable and have easy care features. Miss Thompson says these features include fabrics which are colorfast and shrink resistant; soil-resistant or soil-release finishes; permanent press finishes; garments that can be washed with the family wash; good workmanship; a trim that requires the same care as the garment; and simple, uncluttered lines.

Inflation hasn't changed the price of ashes.

but it has changed the price of your home. For example, if you bought an \$18,000 home in 1963—today it's worth about \$24,000. Don't be left with a costly pile of ashes. See me about a State Farm Homeowners Policy that will cover your home for all its worth... and keep it that way with automatic inflation coverage.

I wholeheartedly approve of the recent Grand Jury report urging the Coffee County Commissioners to enter into a unit system of maintaining our roads and bridges. Although I was an unsuccessful candidate for a seat on the County Commission in the last election, I am still interested in County government and the welfare of its citizens.

I believe that with this system and each commissioner cooperating, it will save the taxpayers of Coffee County thousands of dollars each year. I encourage our elected county officials to strongly consider phasing in a unit system during their current term of office.

ZCHS Editorial You're In The Driver's Seat

Have you ever compared your school life to driving a car? No matter how much help you have along the way, you are the one who is in complete control. Your teachers give you instruction, but whether or not you learn and how you apply what you learn, depends upon only you.

So often we as students feel that when we don't care about learning, don't do our lessons, or halfway do our work, that the teacher is the one who loses out, but it's never the teacher, only ourselves. We often take no responsibility for anything, whether it's bringing necessary pencil and paper to class or turning in an assignment on time, but instead depend upon the teacher to make up for our laziness. If we don't do it or blame her if we make a poor grade for not doing it.

It is very common to hear a graduate remark, "I wish I had studied more when I was in school," or "Why didn't I take advantage of my opportunities to learn as much as I could before I graduated?" An immature person may think these are silly remarks to make, but one day when he is mature, he'll probably say them himself.

So, grow up, take the responsibility of the driver's wheel in your own hand -- learn while you have the chance for without the necessary knowledge you may not be able to complete your life's journey as you planned because the driver was incompetent.

TEACHERS AIDES

Much satisfaction is gained on all sides through the Teachers' Aide program at Z. C. in which high school seniors assist elementary teachers one period a day.

The teachers are very appreciative of the assistance the
